------------------------	-------------	----------------	--------------

Attention POMPE, MARK

Code - Name of Process	Category		Supplier Tech. Rep.	Specification Approvals
	1	2		
AA - Inspection, Fluorescent Penetrant		X		Approved for P3TF2; P3TF47; NAS410 only. Approved Level III: Mark Pompe.
AB - Inspection, Magnetic Particle		X		Approved for P3TF9; NAS410 only. Approved Level III: Mark Pompe.

Remarks: Certification issued in recognition of Nadcap accreditation.

Any changes in this approved Level III should be communicated immediately to GE-A, to the attention of Phil Keown at philip.keown@ae.ge.com or 781-594-2856.

This is to certify that a review has been completed of your technical resources and quality system controls used for the above named process(es) and found them to be capable of satisfying the requirements of the above specifications, subject to the limitations in AE Quality Specification S-1000 for Category I or II Suppliers. This certification does not in itself constitute a waiver of specification requirements as to inspection, testing, maintenance of records, and/or other provisions of the Purchase Order/Sub Contract, nor does it guarantee the acceptance of articles produced for the General Electric Company. Requirements for the submission and qualification of individual parts/samples or other items as contained in specifications, engineering drawings or Purchase Order will be completed as outlined. Inspection of the facilities for which this certification is granted may be conducted at any time by an Aircraft Engines Representative to determine continued compliance with AE requirements.

The Certification shall expire at the end of **Oct-31-2007** unless canceled by an Aircraft Engines representative.
